

LRTS Solutions combines the agility and responsiveness of a high-performing small business with the operational maturity, infrastructure, and technical depth required to execute in high-stakes environments. Our integrated team brings together Lindahl Reed's nationally recognized leadership in energy innovation, infrastructure resilience, and environmental stewardship with TechSource's award-winning legacy in nuclear science, weapons lifecycle support, and national science mission execution. With more than 750 engineers, scientists, analysts, and program managers, LRTS offers federal agencies an expanded, mission-ready partner to accelerate delivery and performance across high-impact federal programs and missions.

LRTS delivers comprehensive technical, scientific, and programmatic services that help agencies solve complex challenges, meet strategic objectives, and deliver measurable value. From energy R&D and grid modernization to nuclear innovation and legacy site cleanup, we provide unique capabilities to advance our nation's most critical missions.

Lindahl Reed delivers mission-driven solutions across the energy, water, environmental, infrastructure, and transportation sectors.

We empower our government clients by integrating engineering, data analytics, program management, and policy expertise to drive resilience, sustainability, and operational excellence. Our work enhances energy security, safeguards critical resources, promotes environmental stewardship, and advances national security objectives.

For over 25 years, TechSource has been a trusted leader in providing cutting-edge science, engineering, and technology solutions.

Powered by the expertise of more than 500 senior-level professionals — including engineers, scientists, and industry veterans from National Laboratories, federal technology programs, and the nuclear sector—we are committed to driving innovation that balances ambition with budgetary and programmatic realities. Guided by a mission-first mindset, we deliver transformative solutions that push the boundaries of what's possible in national security and other critical fields.

Certified SBA 8(a), SDB, WOSB, and EDWOSB Joint Venture

PROVEN INNOVATION ACROSS CRITICAL DOMAINS

- Nuclear Science and Engineering
- Environmental Stewardship
- Energy Innovation
- Nuclear Power
- National Security
- Knowledge Preservation and Transfer
- Project Management
- System Integration – Business
- Project Reviews, Assessment, and Analysis

Delivering Faster. Smarter. Better.

STREAMLINE EFFICIENCY - Expedite acquisition and save time with sole source awards up to \$4.5 million for services and products.

REALIZE COST SAVINGS – Utilize the 8(a) acquisition process to reduce administrative costs significantly.

FAST-TRACK PROJECTS – Launch time-sensitive projects in days, not months, to meet critical deadlines without competitive process delays.

OPTIMIZE PRICING – Work directly with our in-house experts to negotiate the most favorable pricing.

ACCESS TOP-TIER SERVICES – Benefit from our experience delivering high-impact solutions to the most complex and sensitive federal government missions.

ACHIEVE SMALL BUSINESS CREDITS – Meet and exceed agency small business, SDB, and WOSB contracting goals.

FULLY MITIGATE RISK – Access our solutions and expertise with confidence, knowing that sole-source awards to LRTS cannot be protested.

LRTS merges technical expertise with a mission-driven focus to deliver measurable, impactful results. Our diverse team of highly skilled professionals excels science, engineering, technology, and related fields, bringing a wealth of integrated knowledge to every project. We specialize in energy innovation, environmental sustainability, earned value management (EVM), national security, nuclear power, project management, and system integration. Every solution we design is tailored to address your unique challenges efficiently with an unwavering commitment to excellence. Partner with LRTS to embrace innovation and achieve meaningful outcomes.

We empower federal agencies to maximize value while simplifying the contracting process. By collaborating with LRTS, agencies gain access to streamlined contract awards and Small Business (SB), Small Disadvantaged Business (SDB), and Women-Owned Small Business (WOSB) credits.

Unlock Opportunities: How To Award an 8(a) Direct Contract to LRTS

1

STEP 1: Develop a statement of work, prepare a government cost estimate, and obtain the necessary funding.

2

STEP 2: Select LRTS to perform the work and submit a procurement request to the agency Contracting Officer.

3

STEP 3: Contracting Officer prepares and submits an "Offering Letter" directly to the SBA at:

*Joseph Smetak
Business Opportunity Specialist
SBA Portland District Office
620 SW Main Street, Suite 313
Portland, Oregon, 97205.
Email: joseph.smetak@sba.gov
Telephone: (503) 326-6692*

4

STEP 4: LRTS submits a proposal, which the agency reviews and negotiates.

5

STEP 5: Agency awards the contract - and the most efficient path to mission delivery has begun!

THE LRTS 8(a) ADVANTAGE

Backed by deep expertise in federal acquisitions, cutting-edge technical capabilities, and a track record of delivering results, we offer agencies a trusted, low-risk partner to meet their mission-critical needs.

OPERATIONAL DISCIPLINE & PROGRAMMATIC RIGOR

Our teams apply EVM, integrated master schedules, and risk-based planning to ensure compliance, transparency, and control across complex programs, resulting in

MAXIMUM EFFICIENCY, RESPONSIVENESS, AND VALUE.

PARTNERSHIP-DRIVEN DELIVERY

Our delivery model emphasizes sustained partnership to build long-term value through shared accountability and open collaboration.
